HAIR & BEAUTY

Dermalux

Pre-Treatment Advice

1. We recommend booking a skin consultation prior to commencing a course of Dermalux. Skin consultations are free of charge and allow us to determine any skin concerns and whether you are using the correct products for your skin type.
2. All make up, skincare creams and SPF lotions must be cleansed from skin prior to going under the Dermalux machine.
3. Specialist cleanser and luxury face cloths will be made available prior to your appointment for removing make up.

Aftercare Advice

1. Treatment times are short and results are in most cases immediate. Dermalux instantly revives a tired and dull complexion. After just one treatment skin is visibly hydrated and redness is calmed.
2. Your Dermalux treatment should be followed by the application of suitable skincare products including a sunscreen. Make up can be applied after your treatment if you wish.
3. When tackling a specific skin complaint such as acne or rosacea, we recommend a course of 6 treatments as close together as possible. There is no limit on how often you can have a Dermalux treatment. When booking a course, we recommend one treatment every few days followed by a weekly treatment thereafter until desired results are achieved.
